

About Us

Started in 1992, Green Mountain Flavors, Inc.® is a family-owned and operated manufacturer of natural and organic-certified flavors and extracts. We now also sell a line of colors from natural sources.

Most of our competitors try to be all things to all markets, selling artificial flavors, natural and artificial (N/A) flavors, natural flavors, and fragrances. Our scope is much narrower, as we focus solely on clean-label flavors, extracts and colors sold into the food industry. And, because our company is smaller in size than most of our competitors, we are not only more nimble and responsive, but gladly welcome “the great unwashed”, those accounts whose purchases are too small for them to merit attention from our larger competitors.

Why should you consider Green Mountain Flavors? Some of the advantages of our products and services include:

- Premium-quality flavor profiles.
- Clean-label naturally-sourced ingredients.
- Wide variety of natural flavors and extracts.
- Rapid order turn-around.
- Very low minimum order quantities.
- Multiple forms available - liquid (alcohol/water based, emulsion, and oil-soluble) and dry flavors.
- Organic-certified flavor line.
- Allergen-free nut flavors.
- Dedicated equipment for allergen-containing products.
- Kosher certification for all flavors, extracts and colors.

If you are tired of getting the run-around from your flavor supplier, give us a shout – you will be glad you did!
